0424 739 176

## Education

### Adelaide University

Adelaide, Australia

Bachelor of Information Technology

Expected

Core Subject GPA: 6.5/7

Relevant Coursework: Evolutionary Algorithms, Machine Learning, Artificial Intelligence Modeling, Computer Networks, Operating Systems, Database Systems, Software Engineering, Web Development

## Experience

### Software Engineer Intern

June 2023 – August 2023

Company Name

City, State

- Developed and maintained web applications using React and Node.js
- Collaborated with team of 5 engineers to deliver features on time
- Improved application performance by 30% through code optimization

### Research Assistant

September 2022 – Present

University Research Lab

City, State

- Conducted research on machine learning algorithms for data analysis
- Published findings in peer-reviewed conference proceedings
- Assisted in writing grant proposals and technical documentation

## Projects

### Project Name

[github.com/yourusername/project](https://github.com/yourusername/project)

Technologies: Python, Flask, PostgreSQL

- Built a web application that processes and analyzes large datasets
- Implemented RESTful API with authentication and authorization
- Deployed application using Docker and AWS

### Another Project

[github.com/yourusername/project2](https://github.com/yourusername/project2)

Technologies: JavaScript, React, Node.js

- Developed a real-time chat application with WebSocket support
- Implemented user authentication and message encryption

## Technical Skills

**Programming Languages:** Python, Java, JavaScript, C++, SQL, HTML

**Frameworks & Libraries:** React, Node.js, Flask, Django, Express.js

**Tools & Technologies:** Git, Docker, AWS, Linux, MongoDB, PostgreSQL

**Other:** Agile/Scrum, CI/CD, RESTful APIs, Microservices
